The American Association of Collegiate Registrars and Admissions Officers, founded in 1910, is a nonprofit, voluntary, professional association of more than 11,000 higher education administrators who represent more than 2,600 institutions and agencies in the United States and in forty countries around the world. The mission of the Association is to provide leadership in policy initiation, interpretation, and implementation in the global educational community. This is accomplished through the identification and promotion of standards and best practices in enrollment management, information technology, instructional management, and student services.

About the Authors

Jason Brown

Jason Brown is acting director of curriculum and articulation services for Pima Community College in Tucson, Arizona. He holds a bachelor of science in political science from Arizona State University and a master of arts in library and information science from the University of Arizona. Brown has a professional career that spans the non-profit and higher education arenas. He has served as executive-level support and as a curriculum coordinator at Pima Community College for the past ten years.

Heather A. Chermak

Heather A. Chermak currently serves as university registrar at the University of Idaho. She earned a bachelor of business administration in management information systems from the University of Wisconsin–Eau Claire and her master of science in administrative leadership from the University of Wisconsin–Milwaukee. Chermak began her higher education

career at Oregon State University as assistant registrar. She learned about becoming a registrar from an AACRAO brochure she discovered in the Evanston Public Library in 1994. Before transitioning to a career in higher education, she managed a trading desk for a national brokerage firm in Chicago, Illinois. She has served in many roles for ORACRAO and PACRAO, culminating in serving as PACRAO president in 2014–2015.

Darin R. Hobbs

Darin R. Hobbs has a rich background in policy application with an emphasis in property and casualty insurance adjudication, rehabilitation case management, workers' compensation, and catastrophic storm deployment. He is also experienced in nonprofit management. After accepting a position at Western Governors University in 2009, Hobbs was quickly promoted to university registrar in recognition of his operational strengths. He

is a member of the National Student Clearinghouse Advisory Committee, the PESC Academic Credentialing & Experiential Learning Task Force, as well as AACRAO. Hobbs earned both his degrees in psychology from Angelo State University (Texas).

Wendy Kilgore

Wendy Kilgore serves as director of research for AACRAO and has more than 19 years' experience as a higher education administrator and consultant in the United States and Canada. She brings expertise in recruitment, admissions, financial aid, academic advisement, curriculum support, registration, records management, veterans' education services, technology, organizational restructuring, student-centric business practice development, policy development, and managing comprehensive collaboration to support enrollment efforts. Prior to joining AACRAO full time in 2009, Kilgore served as state dean of enrollment services for the Colorado Community College system and as director of admissions and registrar for the Pima County Community College District. Her professional and consulting experience spans a wide array of institutions, including large public universities, small private colleges, private faith-based colleges, private for-profit institutions, technical colleges, a large two-year multi-campus community college district, and a state community college system.

Reid Kisling

Reid Kisling serves as dean of student development/registrar at Western Seminary (Or-

egon), where he holds administrative faculty status. He has worked in higher education administration since the late 1990s and has developed unique expertise in the areas of registrar's office functionality, organizational culture and change, organizational structure, and effective uses of student information systems to drive enrollment services and growth. Reid has participated on curriculum and self-study committees for several institutions. He holds a master of theology degree and a Ph.D. in organizational leadership and serves as a senior consultant with AACRAO Consulting.

David Leasure

An innovator in online higher education, David Leasure has founded online university programs, developed problem-based approaches to online learning, and emphasized STEM education and technology. He joined Western Governors University in 2012 as provost. Leasure earned bachelor's, master's, and doctoral degrees in computer science and was a tenured professor of computer science at Texas A&M University Corpus Christi, where he researched effective applications of technology to learning. Previously he served as provost and chancellor at Colorado Technical University and led the creation of CTU Online. He supported the quality implementation of online programs as a peer reviewer and team chair for the Higher Learning Commission.

Kurt R. Linberg

Kurt R. Linberg has been involved since 1999 with innovations in higher education as a teacher, mentor, and administrator. As an in-

dependent consultant, Linberg helps colleges and universities implement innovative models that improve access, reduce costs, and improve learning outcomes. He recently served as vice president of curriculum development at Western Governors University. Previously, he was senior vice president/provost at American Sentinel University, where he oversaw healthcare learning innovations. He also served as dean of business and technology at the College of St. Scholastica, where he provided academic leadership to a traditional campus, five extended sites, and online programs. Linberg is the founding dean at Capella University, where he helped create business and technology bachelor's, master's, and doctoral programs from 1999 to 2009. At Capella, Linberg oversaw 200 professors, 5,000 students, and nearly 200 courses.

Linberg holds a B.S. in applied mathematics, an M.S. in software engineering, and a Ph.D. in applied management and decision sciences. Prior to his career in academe, Linberg spent nearly two decades developing and managing life-critical software applications with Medtronic, Honeywell, and Alliant Techsystems. He is also the inventor or co-inventor of ten patents involving implementations of information technology in healthcare, including the Medtronic Care-Link System.

Rebecca Mathern

Rebecca Mathern is university registrar at Oregon State University and has been involved in higher education for twenty years. She first learned to collaborate with academic leaders

as a student government officer in college. She served previously as dean of students at a small non-profit technical school and as registrar of Portland Community College. Mathern earned her B.A. in political science from the University of Minnesota, where she subsequently earned an interdisciplinary master's degree in organizational development and human resources. Mathern is pursuing a Ph.D. in public administration and policy from Portland State University. She has enjoyed presenting on a variety of topics for AACRAO, PACRAO and Oregon ACRAO as well as for Ellucian and AACRAO Tech. She has served on program, local arrangement, and nominations and elections committees for PACRAO.

Robert Morley

Robert Morley has served as associate registrar at the University of Southern California for more than 30 years. During this time he has been responsible, at one time or another, for all offices and services in the registrar's office. Morley has led a number of technology initiatives, including the development of the student information system, electronic transcripts, PDF transcripts, degree progress/audit and curriculum management, among others. He served as the first AACRAO vice president for technology, chair of the SPEEDE committee, and contributing author to the following AACRAO publications: *Student Records Management*, *Academic Record and Transcript Guide*, and *Professional Development Guidelines for Registrars*. Morley earned a B.S. from the University of Southern Il-

linois and an M.P.A. from the University of Southern California.

Julia A. Pomerenk

Julia A. Pomerenk serves as university registrar at Washington State University. She earned her B.A. in English from Pacific Lutheran University and her M.A. in English from The Ohio State University. Pomerenk began her career as an admissions counselor

at Pacific Lutheran University (PLU) and later returned as university registrar. Most of her career has been at Washington State University, where she served as assistant registrar for nine years and as university registrar for 13 years (and counting). Pomerenk has enjoyed involvement with PACRAO, including serving as PACRAO president for 2011–12, and with AACRAO, including serving as AACRAO nominations and elections chair for 2017–18.

Introduction

by Wendy Kilgore

At institutions of higher education in the United States, the role of the registrar in curriculum management varies by institutional culture, size, and shared governance model. As evident from AACRAO's recent survey on the topic, curriculum action processes vary across institutions—as do the individuals, groups, and offices involved in those processes (*see* Appendix A: AACRAO 60-Second Survey on Curriculum Management). Some registrars are highly engaged in the process, serving as a voting member of the faculty governance body. Other registrars are the last to know about curricular changes and become responsible for making square pegs fit into round holes. In this model, the registrar sometimes has to say, “I’m sorry, but we are unable to make that particular curricular change” because of XYZ policy, federal regulation, or system limitation. In such situations,

students are often the ones who bear the consequences of a disengaged registrar’s office.

Ideally, the registrar is closely involved with the curriculum management process. Among other functions, an engaged role in curriculum management process is one that provides data to support proposed curricular changes; provides feedback on the guidelines for curriculum actions; and provides reasoned and data-driven recommendations in support of or against proposed actions (*e.g.*, mid-year catalog change, course number change, etc.). The registrar also is typically responsible for implementing required curriculum changes in the student information system, catalog, web pages, reporting platform, and degree audit system.

Curriculum management should be both nimble and reasoned: nimble in that associated policies and procedures are not so strict

v

as to limit the institution’s ability to respond to necessary and needed curricular changes in a timely manner, and reasoned in that checks and balances should be in place to control the number, type, and timing of curriculum changes. This helps ensure the integrity of the degrees and helps maintain the ability to accurately and effectively advise students about degree requirements.

This guide is intended to help registrars understand how to help support reasoned and nimble curriculum management at the undergraduate and graduate levels. Included are recommendations and examples of how to

establish and maintain positive working relationships with academics and other stakeholders; how to say “no” as needed; how to manage processes associated with curriculum management; and how to guide the application of technology. Additional content includes successes and challenges relative to curriculum management in the emerging competency-based education environment and accreditation and assessment considerations.

Wendy Kilgore, Ph.D.
