Make the drinks along with me!
Here’s what you will need to make both.

Ingredients:
- A clear spirit, like vodka, gin, tequila, or rum (all of these are great options for this drink!)
- A dark spirit, like whiskey, rum, or brandy
- A lemon (or two, if you are bartending for a friend)
- A fat source (butter, coconut oil, fat from your favorite protein...I will be using butter!)
- Your favorite bottle of sparkling rosé
- Fresh raspberries
- White sugar
- Fresh herbs of your choice (rosemary, sage, thyme are all great choices)
- Aromatic bitters, such as Angostura or Peychaud’s

Tools:
- A way to measure 1/2 ounce (a Tablespoon works perfectly for this if you don’t have a jigger)
- A way to shake a cocktail (a shaker, a jar with a lid, anything!)
- A way to stir a cocktail
- Your favorite glass for a cold drink (think 6-8 oz...I will be using a wine glass and a rocks glass!)
- A way to hold back ice; these drinks are served up!
- Ice
- A pan to go on your stove, and a way to stir
- A way to measure dry/wet ingredients, like a 1-cup measuring cup
