

September 16, 2019

Representative Nancy Pelosi  
Speaker of the House  
United States House of Representatives  
1236 Longworth House Office Building  
Washington, DC 20515

Representative Kevin McCarthy  
Minority Leader  
United States House of Representatives  
2468 Rayburn House Office Building  
Washington, DC 20515

Dear Speaker Pelosi and Leader McCarthy,

On behalf of the undersigned organizations representing Historically Black Colleges and Universities (HBCUs), Tribal Colleges and Universities (TCUs), Hispanic-Serving Institutions (HSIs), other Minority-Serving Institutions (MSIs), and the higher education community at large, we write to ask that you and the members you lead vote in favor of H.R. 2486, the Fostering Undergraduate Talent by Unlocking Resources for Education (FUTURE) Act when it comes up for a vote tomorrow.

This bicameral, bipartisan bill was introduced by Representative Alma Adams (D-NC) and Representative Mark Walker (R-NC) to extend vital mandatory funding for Science, Technology, Engineering, and Mathematics (STEM) education, student completion and infrastructure programs benefiting HBCUs, TCUs, HSIs, and other MSIs in Title III, Part F of the Higher Education Act of 1965 (HEA) before it expires on September 30, 2019.

Mandatory funding for STEM education and other programs at these important institutions was first instituted when the College Cost and Reduction Act of 2007 was signed into law. This bill passed both the House and Senate on a bipartisan basis and allowed for mandatory funding to flow to HBCUs, TCUs, HSIs and other MSIs from 2008 to 2009. Shortly thereafter, the Higher Education Opportunity Act, which maintained this important stream of funding, passed both the House and Senate on a bipartisan basis and was signed into law in 2008.

It was not until 2010 that these mandatory funds were extended for an additional ten years because Congress recognized the value in securing funding for institutions that served large numbers of low-income, first-generation college students of color.

According to a recent report, there are more than “20 million young people of color in the United States whose representations in STEM education pathways and in the STEM workforce [fall] . . . far below their proportions of the general population.”<sup>1</sup> It was emphasized in this

report that “the educational outcomes and STEM readiness of students of color will have direct implications on America’s economic growth, national security, and global prosperity.”<sup>2</sup>

Furthermore, a report released by the White House’s National Science and Technology Council stated that the “national benefits of a strong STEM foundation cannot be fully realized until all members of society have equitable access to STEM education and [until] there is much broader participation by those historically underserved and underrepresented in STEM fields...”<sup>3</sup> The report goes on to highlight the importance of diversity in the workplace leading to more engaged, innovative, and higher-performing organizations.

It is clear that diversifying our STEM workforce should be a priority for our country and would pay immediate dividends to our economy. The FUTURE Act helps avoid a \$2.55 billion-dollar cliff in funding over 10 years for HBCUs, TCUs, HSIs, and other MSIs by extending mandatory funding until Fiscal Year 2021. This bill is revenue neutral and allows these important institutions to continue the valuable work of offering quality STEM programs.

We thank you for your consideration of this request, and look forward to working with you to enact this legislation before the September 30 deadline.

Sincerely,

Ted Mitchell  
President
